# T&D Data Logging Systems: Choice Means Solutions

## TR-7wb/nw Series

Auto data upload to the cloud or local server via WLAN/LAN  
Bluetooth® capability for easy access from smartphone/tablet  
Mobile App for settings, trend graphs and warnings  
USB connection to PC for data download

°C %RH TC  
Bluetooth LAN USB WebStorage

## RTR-500 Series

Wide selection to meet your needs: 13 types of data loggers and 4 types of base stations  
Base station for auto data collection and transmission to cloud or designated location  
Monitoring of current readings  
Alert and notification features

°C %RH Pt TC V mA P Ix UV CO2  
Wireless LAN 3G USB WebStorage

## TR4 Series

Mobile Apps for real-time monitoring, graphs, and auto-upload to the cloud  
Auto search for nearby loggers via Bluetooth

°C Pt TC  
Bluetooth WebStorage

T&D offers free software, applications, and online services to help you take full advantage of all the features of T&D Data Loggers.

### T&D WebStorage Service

Access the online demo Now! » <http://www.webstorage-service.com/>

By setting up any of our compatible products to transmit data to our dedicated Internet server, you can use our WebStorage Service to access and share your data anytime from anywhere.

### User-Friendly Software and Apps

Find the appropriate software or app that fits your product and needs - including a high-performance graphing software T&D Graph and user-friendly mobile apps which allow direct wireless communication between your smartphone/tablet and loggers.

## TR-5i Series

Line-up of 7 types of compact durable waterproof loggers  
On-device LED flash warning notification  
Long battery life up to 4 years  
Easy on-site data collection via IR enabled handheld collector or portable USB connectable port for PC

°C Pt TC V mA P  
Collector

## TR-7Ui Series

Array of models for measuring temp/humidity plus CO2, UV, Illuminance and Barometric Pressure  
Simple USB connection to PC for easy data download  
Data analysis using graph tools

°C %RH Ix UV CO2 hPa  
USB Collector

## MCR Series

4-channel battery operated data loggers  
Connect 4 units for up to 16 channels of simultaneous recording  
Large capacity internal memory + SD memory card support  
Trend graph for real-time data check

TC V  
SD Card

## RTR-601 Series

Wireless data logger for internal temperature of food and liquid  
Totally sealed design ensures no oil or water corrosion  
Auto upload logged data to our cloud service or your FTP server

°C  
Wireless LAN WebStorage  
Currently only US/FCC model available

## RTR-322 log-ease

Easy monitoring and downloading of temp/humidity data via PC connected USB dongle  
Compact and friendly form design perfect for home or office use
